HAMZA REHMAN
SOFTWARE ENGINEER

PROFILE

I have 3+ years of Experience as a professional software engineer. I am looking for job related to my profession (software engineer). It is suitable for me on the job training and opportunity where I could practice my knowledge and develop my personality as a career person while utilizing my skills I have experience with multiple projects with international clients or the projects that I have done during the study, I'm excited to be applying for the Software Developer position, there is always something new to discover. Designing a program that is truly helpful to the user is my ultimate goal on every project, and I am delighted by the opportunity to apply my knowledge as a programmer.

EXPERIENCE

Main Responsibilities
My Responsibilities includes:

1.Collaborate with product, design, and marketing teams.
2.Fix bugs in existing code.
3.Code and test programming for software.
4.Develop and deploy computer applications.
5.Provide testing, documentation, training, and support for third-party software products.
6.Resolve user-submitted problems and questions

FINAL YEAR PROJECT

🏆

Semantic Topic categorization for news

We are proposing a research based web application in the topic tracking research area. The main purpose of(Semantic Topic categorization for news) is to identify and follow events presented in multiple news sources. It collects dispersed information together and makes it easy for the user to get general overview or detailed analysis of a series of events having similar topic (Python ,djagno , Javascript , html ,css ,bootstrap , scrapy , NLP)
